Content Management System

(CMS)

Focus on your business or organization

- Easy to Use
- Quickly Make Changes
- Low Startup, Low Cost
- Email Reminders
- Task Management
- Earn FREE hosting

The Content Management System (CMS) allows you to focus on your business. It was designed specifically for Businesses and Organizations who need a professional web presence, but cannot afford to spend thousands on website designers, hosting and maintenance.

- Content Editor with Spell Checker built into your browser.
- Each page has it's own Image and Document Library. Upload up to 10 images at a time.
- Include RSS content your site. News feeds are the most popular type, but most industries have RSS feeds available.

Easily maintain your own website content

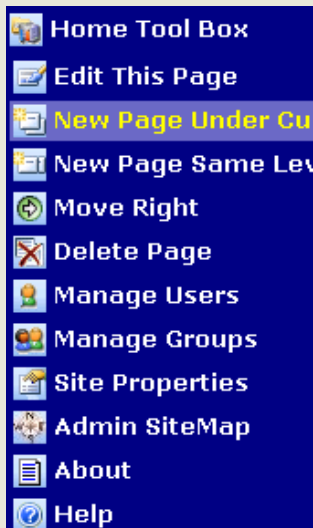

Maintain your business' website without technical knowledge. All you need is an internet connection and Internet Explorer.

The Content Management System is loaded with features that are ideal for Businesses, Schools, Churches, Clubs and Organizations of any type.

- One Click Page Creation
- Robust Menu System
- Built-in Content Editor
- Built-in Spell Checker
- Event Calendars
- Task Manager
- Layout & Color choices
- Doc & Image Libraries
- Media Support .qt or .wmv
- Role & Group Access Control
- Extendable

TOOL BOX

The tools needed to maintain a professional looking website are built into CMS.

EASY TO USE

Need to quickly add a new page to your website?
- With a click of the mouse your website has a new page. The menu automatically reflects the change.

Need to make a quick text change?
- Just navigate to the page and click "Edit This Page" in the Tool Box. A word processor like editor is loaded into your browser. Make your change and click Save.

Getting bored with the color scheme or layout?
- The Site Properties screen allows you to instantly apply different color schemes and layouts to the entire website.

CALENDAR

Have you ever scheduled a meeting or event and only half of the participants attended?
- The Calendar's Email Reminder option is the solution. It sends email reminders to registered users the day before the event.

TASK MANAGER

The Task Manager allows you to create and assign tasks to a registered user and monitor the task's status through completion of the task. No special software required. It's built into CMS and accessed from your browser.

EXTENDABLE

Need a custom form or report?
- We can build custom controls tailored to your requirements.

EARN FREE HOSTING

With our Referral Program you earn FREE hosting for your organization. Each referral, that signs up for CMS hosting earns your organization a credit for one month of hosting. Imagine with 12 referrals you could earn an entire year of FREE hosting.

- Up to 30 email accounts with your domain name are included. Additional available.
- Delegate content management tasks to an individual or group of users.
- Web pages are automatically optimized for search engines.
